

Napa Master Gardeners Online & The California Garden Web

1

Search: Napa Master Gardeners"

Or: <http://ucanr.edu/sites/ucmgnapa/>

2: Gardening Resources

The screenshot shows the website for the University of California Master Gardeners of Napa County. A red arrow points from the number '1' to the search instructions. Another red arrow points from the number '2' to the 'Gardening Resources' link in the left sidebar. A blue oval highlights the 'References and Slides Workshops and Events' link at the bottom of the sidebar. The main content area features a banner for 'Spring & Summer Vegetables' with a photo of a basket of vegetables and details about a Saturday morning meeting. To the right, there is a 'Master Gardener Calendar' with upcoming events and a 'Weekly Newspaper Article' section.

UC Master Gardeners of Napa County

The Master Gardener program is a volunteer organization associated with the University of California Cooperative Extension. Our mission is to extend research based knowledge on home horticulture, pest management, and sustainable landscape practices to the residents of California and to be guided by our core values and strategic initiatives.

Spring & Summer Vegetables

Saturday, March 11
9 - 11 a.m.
UCCE Meeting Room • 1710 Soscol Ave., Napa
\$5 per person, reservations preferred, seating is limited.
Register at: <http://ucanr.edu/2014/summervegveg>
For questions call (707) 253-4221

A team of UC Master Gardeners will help home gardeners learn what you need to know to successfully produce spring and summer vegetables from seeds and plant starts. From soil types and preparation to when and how to plant, this comprehensive program includes watering, fertilizing, harvesting tips, and some pest and disease control information.

Advice to Grow By ... Ask Us!

The UC Master Gardener Program designed the California Garden Web to serve as a portal to organize and extend the University of California's vast collection of research-based information about gardening to the **public**. The California Garden Web focuses on sustainable gardening practices and uses a question and answer format to present solutions. The blog below highlights gardening issues pertaining to the season.

[New mobile app to track close encounters with coyotes](#)

Added February 13, 2017

As urban coyote numbers rise, the animals are increasingly crossing paths with residents. There have been police reports of coyotes attacking pets and even people, but there has been no place to report casual coyote encounters. Now there is a new...
