STEAM & DOMINUS

Objective:

Enhancing weed control efficacy by increasing mobility of Dominus® via Steam

Non-treated Control

Dominus 20 gpa

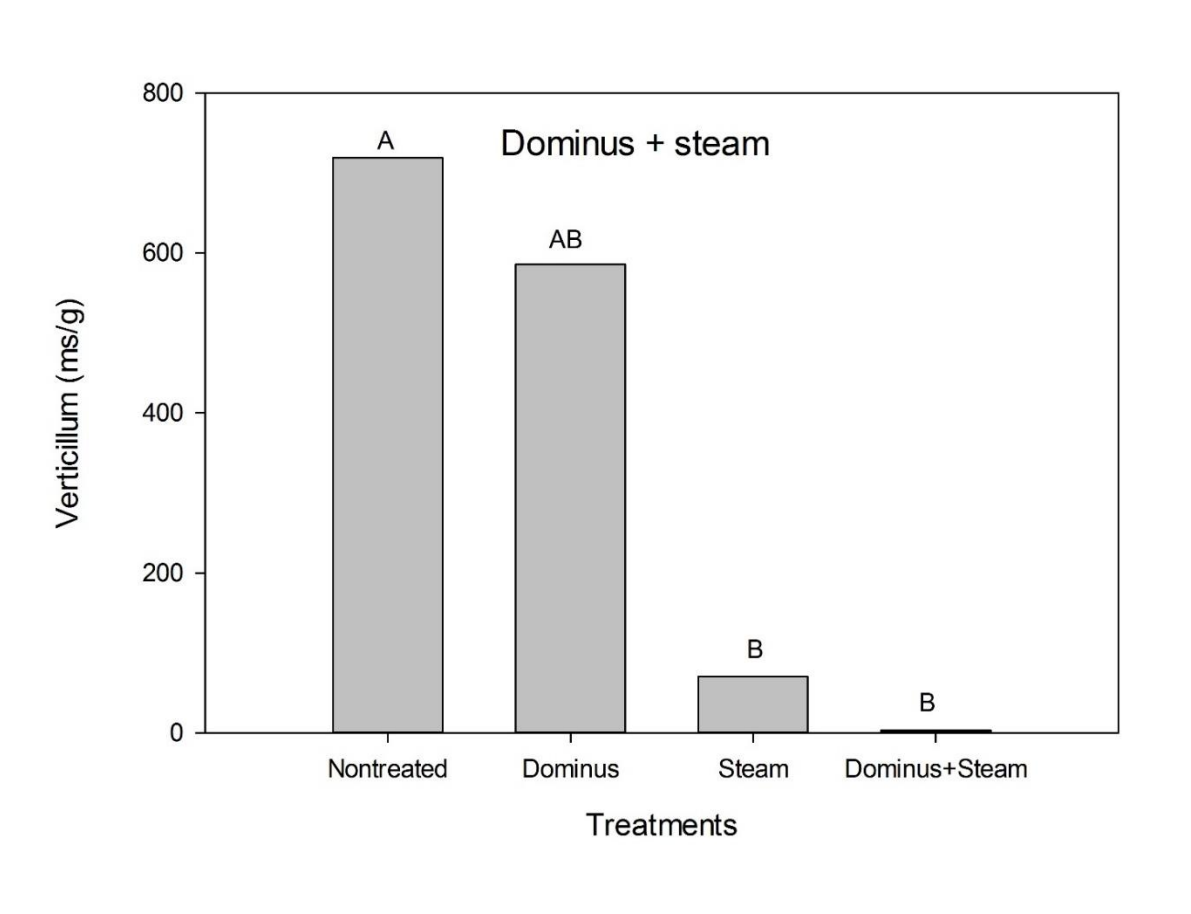

Steam (1 hr, 50 kPa)

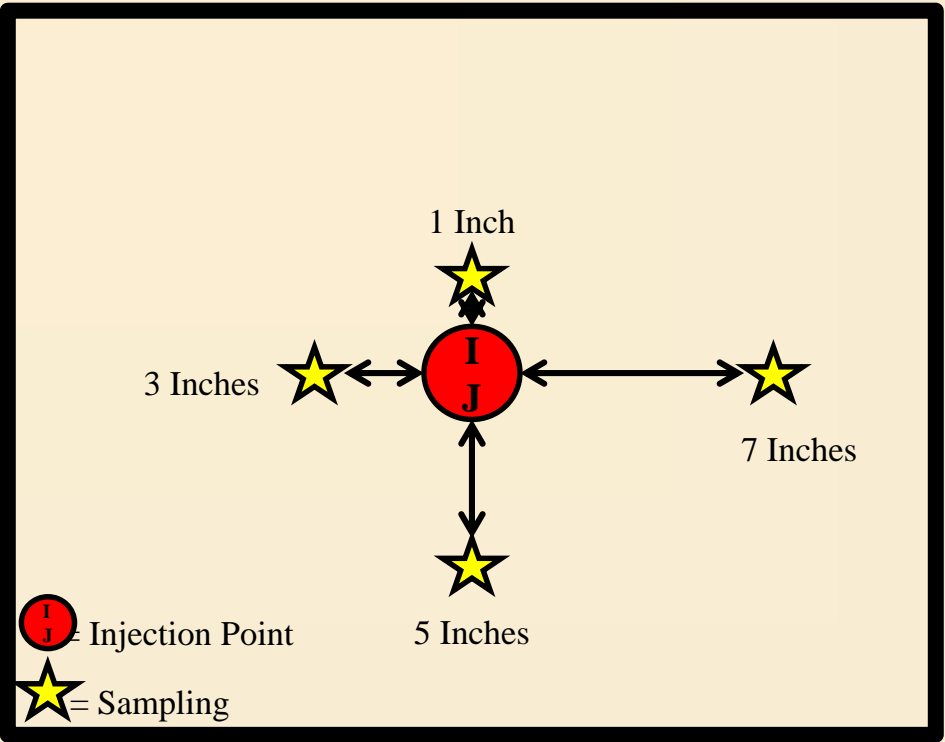

Steam (1hr, 50kPa) + Dominus (20 gpa)

Visual impact of treatments on growth of rye grass.

Verticillium (ms/g) viability at 7 inches from injection of steam or Dominus.

Cover crops in furrows

Select 16 fl oz/Ac: bed + furrow

Gramoxone (L)

Suppress (R)

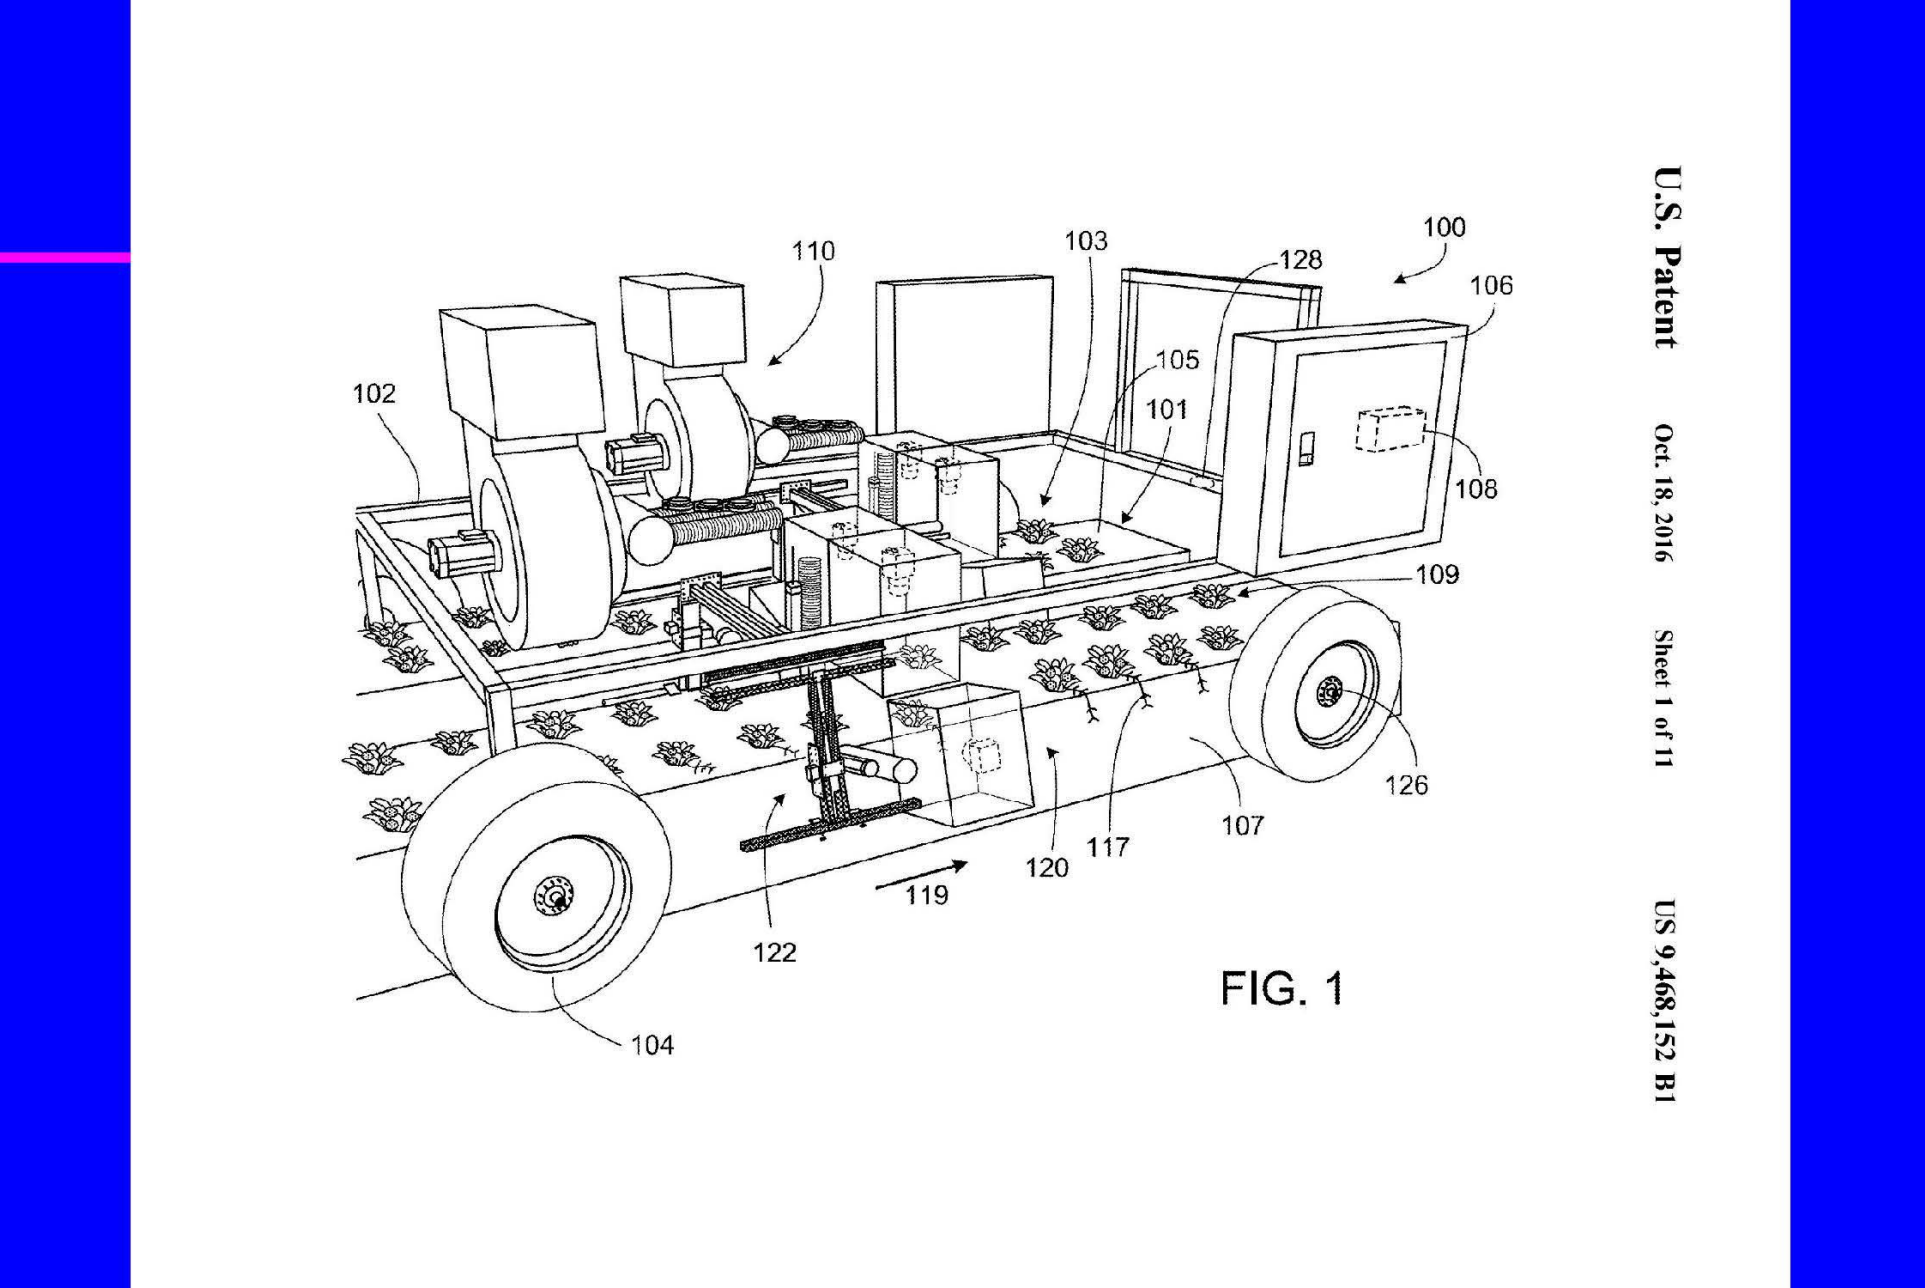

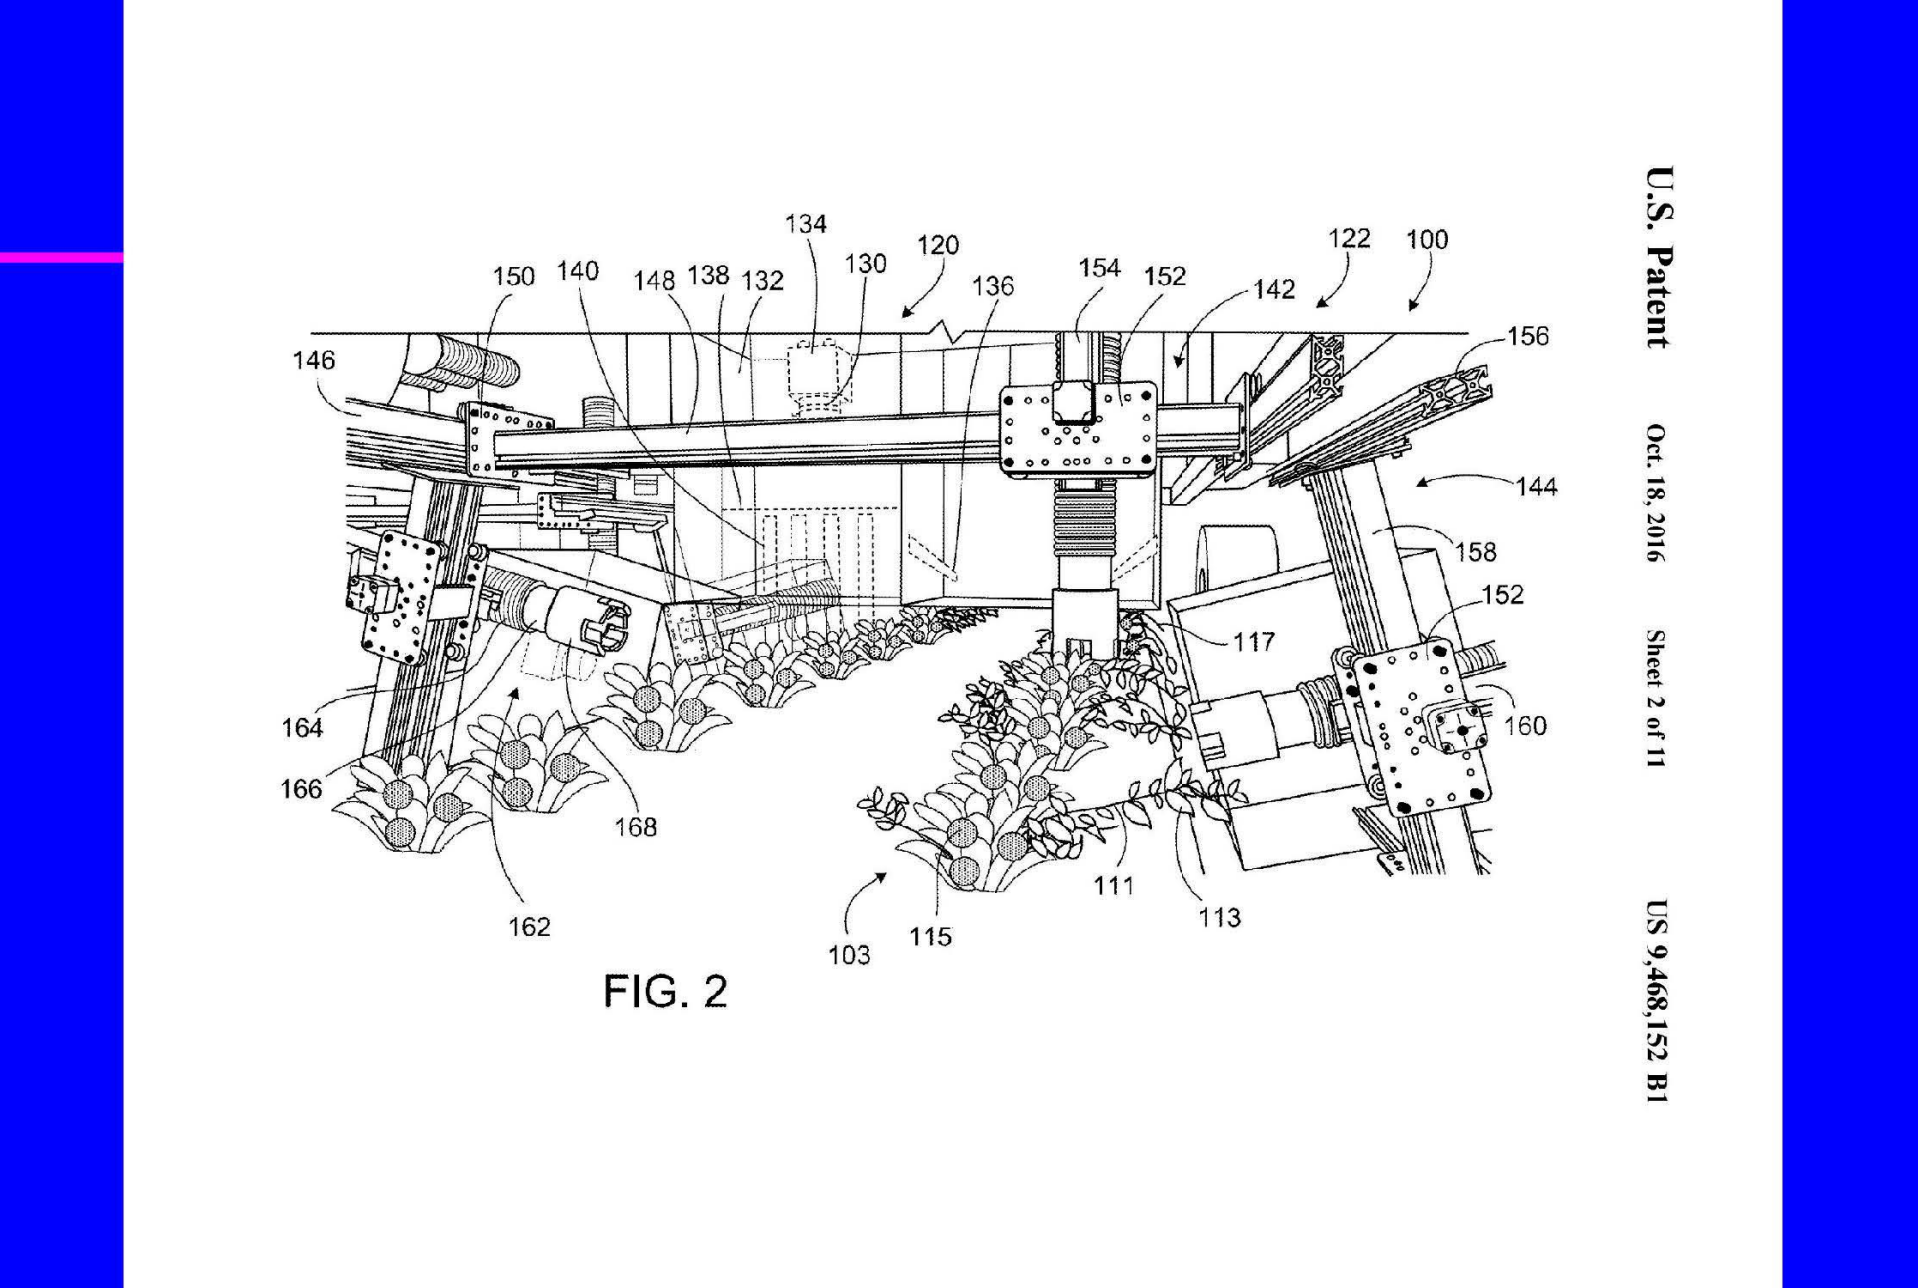

Comparison of Gramoxone and Suppress herbicides in furrow January 2017.

WEED STAMPER

AUTONOMOUS VEHICLES - SWISS
