

Green Skies Vertical Farm

Organic herbs and microgreens

Fast Facts

Founded in 2013 in Berkeley with 3 goals:

- Portable
- Achieve Organic Certification
- Profitable

Moved in 2014 to Oakland

Achieved organic certification 2015

Profitable ????

That's a pretty small farm, man.

Green Skies is one-fourteenth of an acre (about 3200 square feet). The average size of a US farm is 434 acres or more - which is 6,000 times larger than us.

So if you want to help the little guy, buy your produce from us!

Our farm lot before we transformed it

Our farm lot
now...

Micro arugula

Super Salad

Sunflower shoots

Stacked
grow beds
we use to
grow mint,
sorrel, and
other herbs

Waiting to
be put to
work

Rosemary...

Lemon balm

Diversify Revenue Streams

Wholesale

Direct to Customers

Grants- (Western Sare: Pesto Grant, California Specialty Crop Block
Grants: Fruit/ Veggie Vending Machines)

Farm Tours

Consulting

Sorrel

fun fact: we are working on a grant to encourage pesto-makers to replace basil with sorrel in their recipes.

sorrel is easier for local farmers to grow and has a nice lemony bite!

Sales Channels (past & present)

Delivery Services: Good Eggs, GrubMarket, Farmigo

Online- Direct to Customers (pickup sites): Barn2Door

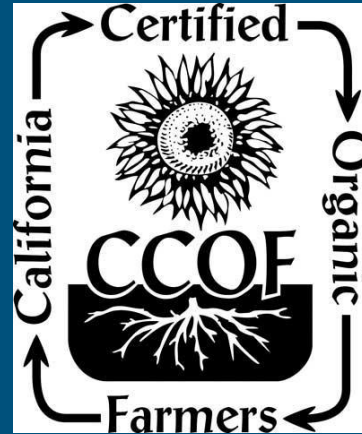

Online- To Restaurants: Barn2Door, FoodStems

Stores- Mandela Marketplace

CSA's- Phat Beets

spearmint

Organic.

GSVF has
been
certified
since 2015.

Thank you for your time.
