

Listening Sessions for Citrus Growers, Insurance Co. Staff & Agents regarding available Crop Insurance Plans

Agralytica of Alexandria, Virginia is gathering feedback on revenue coverage options for citrus growers on behalf of the USDA's Risk Management Agency (RMA). As part of the review, Agralytica staff will hold listening sessions with growers, insurance staff and other interested parties. In California, sessions will be held in Bakersfield and Tulare.

The aim is to get feedback on how the policy options offered by RMA are working for citrus growers, potentially expanding them. This is an opportunity for producers, insurance staff and agents alike to communicate concerns and possible improvements for consideration.
