

## Learn about Cover Cropping in the Southern San Joaquin Valley!

### Webinar 1

**When:** April 20, 12-1 PM

**Where:** On Zoom, register here:

<https://ucanr.edu/survey/survey.cfm?surveynumber=33484>

**What:**

The April webinar will cover research on water dynamics in a new table grape vineyard in Parlier. We will also interview growers that utilize cover cropping in perennial cropping systems: grapes and almonds. Growers will share their insights on cover crop management, challenges, and benefits.

### Webinar 2

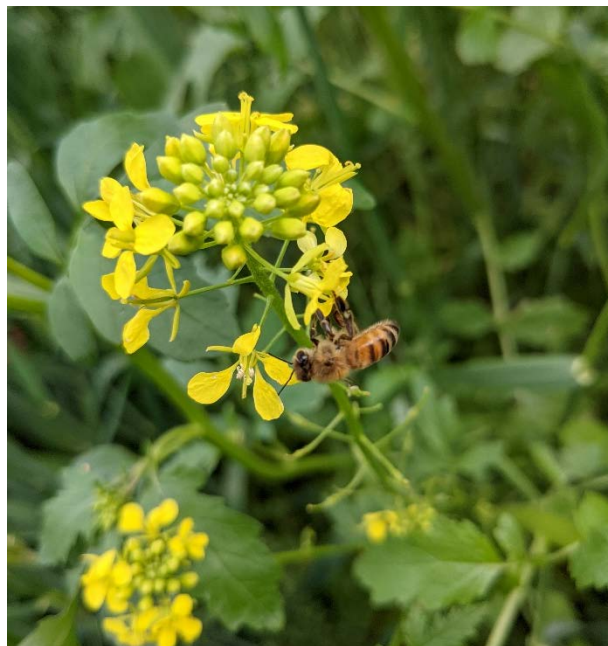

**When:** May 18, 12 – 1 PM

**Where:** On Zoom, register here:

<https://ucanr.edu/survey/survey.cfm?surveynumber=33484>

**What:**

Interested in planting cover crops but don't know which species to plant? Join us for the May webinar to learn about our research trial comparing common cover crop mixes in 2 locations in the San Joaquin Valley. Get your questions about logistics, soil health, and species selection answered by our panel of experts.
