

Young Orchard Irrigation and Nutrient Management Workshop

DESCRIPTION

The workshop will feature presentations by various experts and researchers focusing on best irrigation and nutrient management practices tailored specifically for young orchards in the San Joaquin Valley. Attendees will gain insights into the irrigation and nutrient needs of young orchards that are different from those applicable to mature orchards and learn strategies for adjusting these practices as orchards mature. This knowledge aims to ensure healthier tree development, better resource utilization, and more resilient orchards in the face of climate change. Growers, CCAs, and other agricultural professionals are encouraged to attend. Workshop attendees can request one-on-one assistance from a farm advisor.

Taller de Riego y Manejo de Nutrientes del Huerto Joven

DESCRIPCIÓN

Este taller contará con ponencias a cargo de expertos e investigadores enfocándose en las buenas prácticas de riego y manejo de nutrientes a la medida de huertos jóvenes en el Valle de San Joaquin. Participantes aumentarán su conocimiento de las necesidades de riego y nutrición de los huertos jóvenes, distintas a las de los huertos maduros, y aprenderán estrategias para ajustar estas prácticas durante la maduración del huerto. Estos conocimientos pretenden asegurar la salud del desarrollo del árbol, mejor utilización de recursos, y huertos más resistentes frente al cambio climático. Animamos a los cultivadores, CCAs, y todos los profesionales de la agricultura a asistir. Asistentes al taller van a poder solicitar asistencia individual con un asesor agrícola.
